

Re-Deployment Preventive Medicine Measures

AGENDA

- Purpose of this briefing
- Background on health concerns
- Medical threats / Health problems
- Re-deployment medical requirements
- Homecoming Stress
- Summary and where to get information

PURPOSE

To address any concerns you may have about your health and ensure that you understand the medical requirements for redeployment

BACKGROUND

• Forces redeploy from all over the world

Of utmost importance is foldered
 health protection and addressing concerns you might have about your health

STAYING HEALTHY GUIDE

- Unfold YOUR Redeployment Guide
- Basic information and resources
- Reference Guide for this Briefing

This guide is for use by all active/reserve component military, civilian, retiree, and contractor personnel. Any individual who is returning from any type of military operation should keep and refer to this guide.

POTENTIAL MEDICAL THREATS

- ThreatCategories
 - Infectious
 - Vector borne
 - AnimalassociatedEmental

- Diarrheal diseases
- Tuberculosis
- Malaria
- Dengue
- Meningococcal Meningitis
- Leishmaniasis
- Q-Fever
- Rabies
- Sandfly Fever
- Schistosomiasis
- Typhoid/Paratyphoid
- Typhus
- Boutonneuse Fever
- West Nile Fever
- Leptospirosis

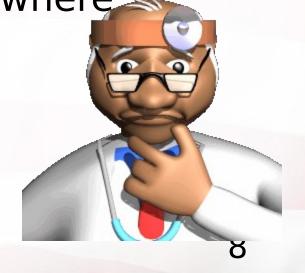

COMMON HEALTH PROBLEMS

- Most illnesses occur while in thea
- You may experience minor, temporary changes in health after redeployment
- Some diseases may not cause symptoms until after returning home; most of these will show up within the first six months
- Take medications as directed by your physician (ex. Anti-malarial)

COMMON HEALTH PROBLEMS

- If you experience:
 - Fever
 - Muscle or joint pain
 - Stomach or bowel problems
 - Swollen glands
 - Skin problems
 - Excessive tiredness
 - Emotional problems
 - Sleep difficulties
 - Shortness of breath
 - Weight loss

- Seek medical care as soon as possible
- Be sure to tell your provider that you were deployed and where

In-theater

- Receiving this post-deployment medical threat briefing
- Completing the Post-Deployment Health Assessment (DD Form 2796)
- Receiving post-deployment medical screening (of 2796), testing, and follow-up
- Understanding where to go for health problems or concerns after you return home

Home Station

 Tuberculosis skin test (TB), blood draw and any indicated referral appointments

9

- In-theater
 - Receiving this post-deployment medical threat briefing
 - Completing the Post-Deployment Health Assessment (DD Form 2796)
 - Receiving post-deployment medical screening (of 2796), testing, and follow-up
 - Understanding where to go for health problems or concerns after you return home
- Home Station
 - TB skin test, blood draw and referral appointments

POST-DEPLOYMENT

Health Assessment

Authority: 10 U.S.C. 136 Chapter 55. 1074f, 3013, 5013, 8013 and E.O. 9397

Principal Purpose: To assess your state of health after deployment outside the United States in support of military operations and to assist military healthcare providers in identifying and providing present and future medical care to you.

Routine Use: To other Federal and State agencies and civilian healthcare providers, as necessary, in order to provide necessary medical care and treatment.

Disclosure: (Military personnal and DoD civilian Employees Only) Voluntary. If not provided, healthcare WILL BE furnished, but comprehensive care may not be possible.

INSTRUCTIONS: Please read each question completely and carefully before marking your selections. Provide a response for each question. If you do not understand a question, ask the administrator.

Reset

- Page 4: Health Assessment
 - Face-to-face discussion with Health Care Provider (HCP)
 - Answer based on how you are feeling today
 - Review of completed DD 2796 with HCP
 - Follow-up may be recommended at home station
 - Answering <u>yes</u> to any questions will not delay your departure from theater
 - *Hand-carry a copy of your DD 2796 all the way through your home station outprocessing* 16

- In-theater
 - Receiving this post-deployment medical threat briefing
 - Completing the Post-Deployment Health Assessment (DD Form 2796)
 - Receiving post-deployment medical screening (of 2796), testing, and follow-up
 - Understanding where to go for health problems or concerns after you return home
- Home Station
 - TB skin test, blood draw and referral appointments

- Tuberculosis Skin Test
 - A skin test on the forearm to show if you have been exposed to tuberculosis
 - Delayed onset of positive test in some folks requires that you be tested twice:
 - At the time of redeployment
 - At 3-6 months after redeployment (Date will be indicated on your DD Form 2796)
 - You must return 48-72 hours after the test to have it read and documented by a health care professional
- Blood sample taken at home station

BLOOD DONATION

 If you get malaria you will be deferred from donating blood for 3 years

Many soldiers who have been deployed overseas cannot donate blood for a year after redeploying.

- In-Theater
 - Receiving this post-deployment medical threat briefing
 - Completing the Post-Deployment Health Assessment (DD Form 2796)
 - Receiving post-deployment medical screening (of 2796), testing, and follow-up
 - Understanding where to go for health problems or concerns after you return home
- Home Station
 - TB skin test, blood draw and referral appointments

SO YOU HAVE HEALTH QUESTIONS AND CONCERNS

Step 1

 Be aware that some conditions (like malaria, tuberculosis, and others) may not produce symptoms for weeks to months after you return home.

Step 2

 Contact your local MTF or civilian health care provider for problems, questions, or concerns noticed after redeployment, and make sure to tell him/her about your deployment.

Step 3

 If you feel ill, your primary health care provider can do an initial assessment. If symptoms persist or your condition is not improving, make sure you return to your health care provider.

Step 4

 The DoD Deployment Health Clinical Center is always available to answer your questions, and any questions your health care provider (<u>civilian</u> or military) may have about your health.

DOD DEPLOYMENT HEALTH CLINICAL CENTER

Walter Reed Army Medical Center

6900 Georgia Avenue, NW Building 2, Room 3G04

REUNITING WITH FAMILY AND FRIENDS

 Reunion is a part of the deployment cycle and can be filled with joy and stress.
 Reintegration into the family structure is a critical process.

Refer to the A Soldier and Family
 Guide to redeploying for things to

remember during reunic friends.

 Chaplains and counselor are available to help cop with homecoming stress

SUMMARY

- Background
- Medical Threats / Health Problems
- Post Deployment Requirements
- Completion of DD Form 2796
- Where to go for health information
- Homecoming Stress

CONCLUSION

It is important to the US military and the nation that you enjoy good health as you rejoin your family and friends upon return to home station.

If you have health problems or concerns, it is critical that you let someone know. It will not delay your departure for home station.

Are there any questions?
